

New Ambulance is on the Way

Below is a concept drawing of our new ambulance that should be delivered this March.

Buying a new Ambulance has been quite an adventure. The timeline for getting a new ambulance was a two year process, which forced us to look at buying a used unit. Fortunately for us it came at another ambulance service demise. One of the dealers we normally deal with reached out to us to let us know he had an order cancellation and asked if we were interested. He informed us they are starting to see several cancellations because of ambulance services going out of business. That is why your donation is more important than ever. Since we receive no local Tax Dollars, your donations and subscriptions are vital to our survival. Any amount is greatly appreciated and remember we are a 501(c)(3) Organization so your donation may even be tax deductible.

Economy Ambulance never does it Alone.

Economy Ambulance is helped daily by our local Police and Fire Departments. We also enjoy a great working relationship with our surrounding ambulance services. It is not out of the ordinary to have an ambulance from Medic Rescue, Valley Ambulance, Cranberry EMS, McCandless-Franklin Park and Northwest which is a part of Heritage Valley Health System pull up to your door, when we are not available. We also have other partners. AHN Wexford has an ALS Response Unit as well as UPMC Cranberry. In the event one of our BLS Crews need a Paramedic, they will respond if available. And if you are a subscriber, you are still covered.

Thank you for your Donations!

Active Shooter Exercise

This past fall Economy Ambulance along with our local Fire and Police Department conducted an active shooter exercise. The initial session included classroom sessions and drills. The evening portion involved several evolutions with EMS, Fire and Police working together to rapidly extricate victims while at the same time going after the shooter.

We realize during an actual event we will be on our own to handle the situation during the first several minutes and we wanted to give our local personnel a snapshot of what they should be prepared for. This also gave all players an opportunity to interact and get to know each other. All involved took the exercise very seriously and worked together well.

We would like to thank Fellowship Baptist Church for the use of their facility.
